Palatine Primary School: Acceptable Use Policy

SCHOOL RESOURCES

School networked resources, including SIMS and any provided wifi, are intended for educational purposes, and may only be used for legal activities consistent with the rules of the school. Any use of the network that would bring the name of the school or County Council into disrepute is not allowed.

All users are required to follow the conditions laid down in the policy. Any breach of these conditions may lead to withdrawal of the user's access; monitoring and / or retrospective investigation of the users use of services, and in some instances could lead to criminal prosecution. Any breach of the conditions will also be considered a disciplinary matter.

THE INTERNET, MOBILE PHONES & SOCIAL MEDIA

The school is aware and acknowledges that increasing numbers of adults and children are using mobile phone and social networking sites. Some common examples are Facebook, Twitter and SnapChat. This policy and associated guidance is to protect staff and advise school leadership on how to deal with potential inappropriate use of social networking. **Staff should also refer to the school's Social Media Policy and Child Protection Policy.**

The widespread availability and use of social networking applications bring opportunities to understand, engage and communicate with audiences in new ways. It is important that we are able to use these technologies and services effectively and flexibly. However, it is also important to ensure that we balance this with our reputation. For example if you make a comment about the school or County Council anywhere online, both in or out of school, you must state that it is an expression of your own personal view.

Our use of social networking applications has implications for our duty to safeguard children, young people and vulnerable adults.

The policy requirements in this document aim to ensure that;

- the school is not exposed to legal risks
- the reputation of the school is not adversely affected
- our users are able to clearly distinguish where information provided via social networking applications is legitimately representative of the school.
- provide this balance to support innovation whilst providing a framework of good practice.

This policy covers the use of social networking applications by all school stakeholders, including, employees, Governors and pupils. These groups are referred to collectively as 'school representatives' for brevity.

The requirements of this policy apply to all uses of social networking applications which are used for any school related purpose and regardless of whether the School representatives are contributing in an official capacity to social networking applications provided by external organisations.

Social networking applications include, but are not limited to:

- Blogs, for example Blogger
- Online discussion forums, such as netmums.com
- Collaborative spaces, such as Facebook
- Media sharing services, for example YouTube
- Micro-blogging' applications, for example Twitter

All school representatives should bear in mind that information they share through social networking applications, even if they are on private spaces, are still subject to copyright, data

protection and Freedom of Information legislation, the Safeguarding Vulnerable Groups Act 2006 and other legislation. They must also operate in line with the School's Equality and Diversity Policy.

Use of social networking applications in work time, for personal use only, is not permitted unless permission has been given by the Head teacher.

- Social Networking is already provided as part of Palatine Primary School's Service and is monitored and provided by senior leadership and / or authorised technicians
- All proposals for using social networking applications as part of a school service (whether they are hosted by the school or by a third party) must be approved by the Head teacher first.
