

Coronavirus Social Story

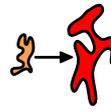

The Coronavirus is a virus that can make people

feel unwell. The Coronavirus can also be called

Covid-19. People who may have the Coronavirus may

have a cough or a fever or a change in taste or

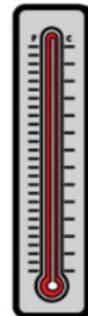

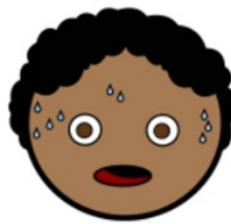

smell.

Cough

Fever

Most

people

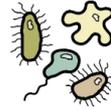

who

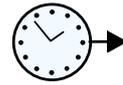

have

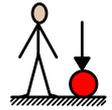

the

Coronavirus

will

stay at

home

to

get

better.

Some

people

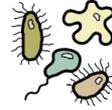

who

have

the

Coronavirus

will

go to

the hospital

to

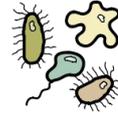

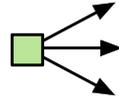

get

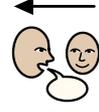

better.

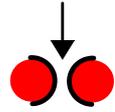

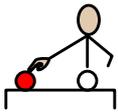

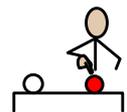

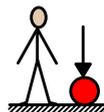

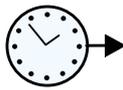

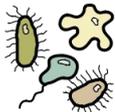

To help stop the the spread of Coronavirus,

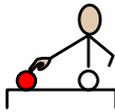

Boris Johnson, the man in charge of the country, said

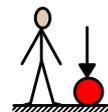

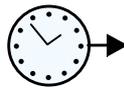

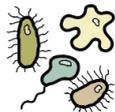

that if I have been close to someone who has

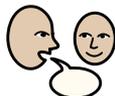

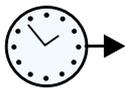

coronavirus I will need to stay at home. This

means that if someone in my class or on my bus

gets coronavirus I will stay at home. An adult

will tell me I can go out of my house and

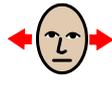

go to school.

I

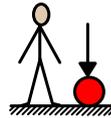

might

not

want to

stay at

home

but it is

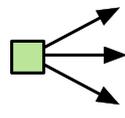

very

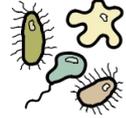

important

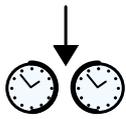

stop

the spread

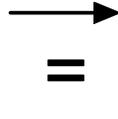

of coronavirus.

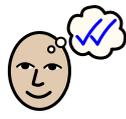

Soon

I

will be

able

to go

to school

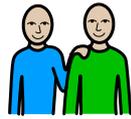

and

see

my

friends.

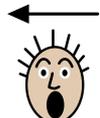

I

might

feel worried,

scared,

upset

or

happy

about

being

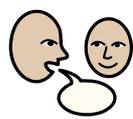

at

home,

I can

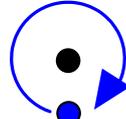

talk to

an

adult

about

how

I

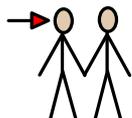

am

feeling

and

they

can

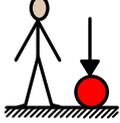

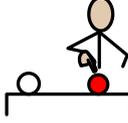

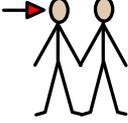

help

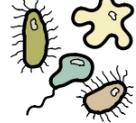

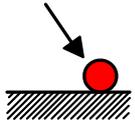

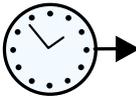

me.

     
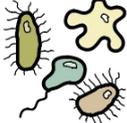

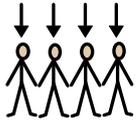

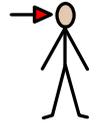

The people who live in my house

   
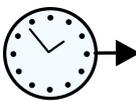

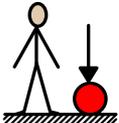

do not need to stay at home. This is because

    
they have not been with the person who

    
has coronavirus. There will be someone

     
to look after me at home. If I get

     
coronavirus everyone who lives in my

   
house will stay at home too.

When

I

am

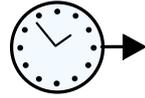

at

home

I

will

have

some

learning

to

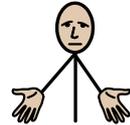

do.

If

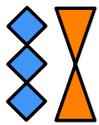

I

need

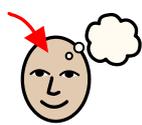

more

or

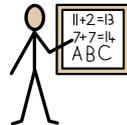

different

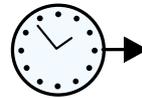

learning

my

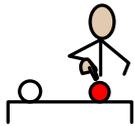

teacher

will

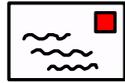

send

this

in

a letter

or an

email.

I

do not need

to

worry

about

the

work,

but if

I

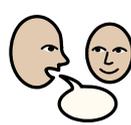

am

worried

I can

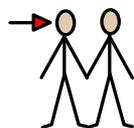

tell

an adult

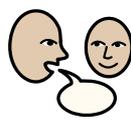

and

they

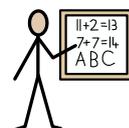

can

tell

my

teacher.

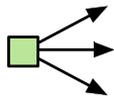

I can

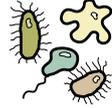

stop

the

spread

of

germs

by

washing my hands

with

soap

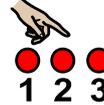

and

water.

I can

count

to

20

when

I

I

wash my hands,

making

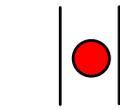

sure

I

wash

between

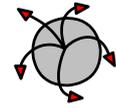

my

fingers

and

all over

my

hands.

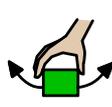

If

I

can't

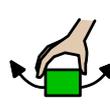

use

soap,

I can

use

hand

sanitiser.
