

Motivational Reading

We have created our Motivational Reading programme to support pupils who are not making progress in their reading using phonics. The programme has been designed for pupils who need their learning tailored to their specific interests in order to engage. We have used research from the See and Learn programme to help us in developing our Motivational Reading.

Pupils read books with increasing amounts of words and sentences to build their sight vocabulary. Initial books focus on learning to recognise, match and read character names and progress to pupils reading sentences with key verbs, matching sentences with pictures and building sentences.

We have resources for Peppa Pig, Hey Duggee, Alvin and the Chipmunks, dinosaurs, animals and Julia Donaldson characters are continuing to develop the resources in our Motivational Reading programme to support pupils and their interests.
